Funding is needed to pay for the \$138,000 match for Phase One of the Toledo Lighthouse Restoration project. This beginning restoration project is funded by a \$500,000 O.D.O.T./Lucas County grant requiring a \$138,000 match. The match is being funded through a loan from Genoa bank. Cleveland Cliffs provided a \$20,000 grant to reduce the loan to \$118,000. The first phase restoration project will: Install first floor windows and shutters(already purchased); Purchase and install outside doors; Replace brick on the first and second floors; Purchase and install second floor windows and shutters. This represents a major facelift for the lighthouse. It is hoped this will lead to funding for the rest of the restoration. The restoration will get a lot of media attention. .
